A Kickstarter Campaign for the WP Plugins A to Z Podcast find it at <http://wppluginsatoz.com/kickstarter>

Started in 2011 by John Overall and joined a few months later by Marcus Couch the WP Plugins A to Z show is a podcast for the WordPress community that now has 240 episodes out and a fantastic listener base of thousands. The show is about plugins for WordPress and each episode brings new plugins which are reviewed by the hosts John Overall and Marcus Couch.

WP Plugins A to Z reviews are unbiased, fair and discuss the good and the bad about plugins as well as sharing insights on how a particular plugin can be used to enhance a website. They discuss and include ways in which the plugins can be used to save time and make you money.

After doing 240+ episodes the time has come to make the WP Plugins A to Z podcast and website a full time business and be able to put aside the need for taking clients to support their families.

The money raised will be used to allow the dedication of full time hours to the development of more quality show content and a more useful website with support forums, training videos and other useful tips.

The podcast will expand to 2 episodes per week with one episode dedicated to interviewing other members of the WordPress community with a focus on plugin developers from around the globe. Showcasing their plugins and getting more in-depth into the developers mindset about the plugin.

The updated web site will include sections for training videos, forums for sharing information, tips and tricks on how to better use plugins for saving time and earning more profit. It will have a place for plugin developers to share their plugins including a premium plugin directory and more.

The WP Plugins A to Z Podcast is freely available on [iTunes](#), [Stitcher](#), [BluBrry](#) and of course on our [website](#). What a successfully funded campaign will accomplish is to make WP Plugins A to Z a better show than it ever was and bring more content to the WordPress community.
